## GREETINGS FROM KDC DENTAL ACADEMY

KDC, launched in 1997 is a pioneer organization in the field of Dentistry under the leadership of Dr.Niranjan Paramshetty. It is a unique platform for striving dentists to refine and enhance their skills in all aspects of dentistry. Due to growing demand KDC dental academy has introduced advanced and practical based course which will offer complete comprehensive and short term courses in different format. Aim of this academy is to encourage and develop generation of highly skilled dentists.

We provide organized training programme and curriculum which will make candidates skilled and confident. As we are running chain of charitable dental clinics , experience will be provided directly on patients for majority of dental procedures under the supervision of specialists.

### THIS COURSE IS FOR:

- ◆ Beginners in private practice
- ◆ For getting excellent jobs
- ◆ Already practicing dentist to increase the bottom line of practice

### Become Masters in Private Practice

- ◆ Our faculty comprises of MDS staff of all specialties and also senior successful private practitioners who have treated lakhs of patients and with this vast experience will be sharing their success and mistakes in their profession and how to come across such problems.

- ◆ The infrastructure includes centralized air conditioned classrooms with multimedia projector and good audio visual aids, RVG, Lasers, Apex Locators, Loopers, Endomotors, Physiodispensers, OPG, Phantom Head Lab, Centrifuge Machine etc.
- ◆ Experience will be provided directly on patients for majority of the dental procedures.
- ◆ We have trained more than 400 dentists nationally and internationally.
- ◆ We provide breakfast, tea, coffee, lunch and snacks during the course.

Many Dentists are not aware of new trends in treatment modalities. There are more than 500 modalities of treatments in the field of Dentistry. If unaware of a single treatment, you are bound to loose lakhs of rupees across your career and the patient is also deprived of best treatment which could be rendered to them (for eg. Laser Assisted Surgeries, Smile Designing, Depigmentation, Lip Repositioning, Teeth Whitening by Lasers, Dental Implants, Hemisection, Apicectomy, Myofunctional Appliances, Fracture Management , Precision attachment etc).

### COURSE DESCRIPTION

For over 5 years, the KDC Dental Academy has provided a unique programme for dentists seeking an opportunity to: Interact with excellent instructors specialized in different fields; with their research supported insights into the latest advancements in the profession.

## Aim of Academy

- ◆ Develop camaraderie with Successful practitioners.
- ◆ To expand skills for dentists re-entering practice / deepen skills for newly licensed dentists.
- ◆ Evidence based practice and problem based learning.

### Apart from treatment modalities you will also be trained with the following knowledge.

- ◆ Leadership qualities, Personality development, Soft skills.
- ◆ Communication, Patient management skills.
- ◆ Ethical promotion, Mass awareness, Philanthropy.
- ◆ Private practice set-up: place selection, Infrastructure, equipment, management etc.
- ◆ Management of medical emergencies.

In short, this course is designed to provide the general practitioner with an organized and structured educational programme of dental sciences in a format that has something to offer for everyone. It consists of lectures, discussion, in-office projects, and intensive hands-on participation utilizing the KDC Dental Academy's state-of-the-art Lab.

## JOB PLACEMENT

We have tie-ups with various dental chains and job providers and we assure job for doctors who undertake the comprehensive course.
